

Blankbogen Damen

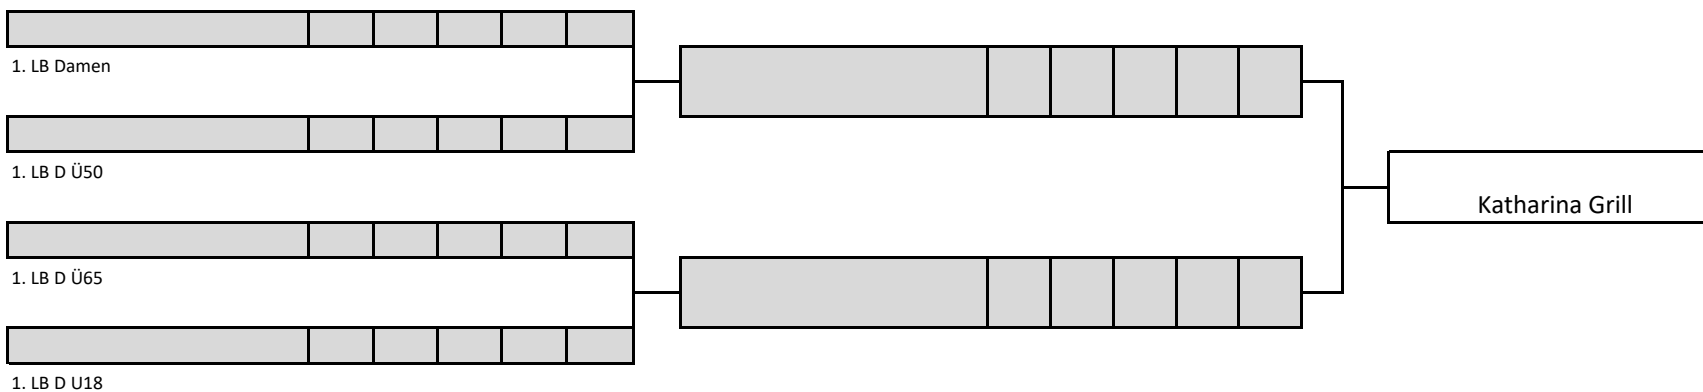

The diagram illustrates the merging of two sorted arrays into a third array. On the left, there are two input arrays, each represented by a horizontal bar divided into six segments. The top array is labeled 'Heike Herbert' and the bottom array is labeled 'Schuberth, Nicole'. These two arrays are connected by lines to a single output array on the right, which is also labeled 'Heike Herbert'. The output array is a single horizontal bar divided into six segments, representing the merged result of the two input arrays.
